DETAILED ACTION

1. Applicant's amendment, filed on 8/15/2005, has been received and entered. Accordingly, changes have been made to the drawings and the specification. Claims 3, 5, and 6 have been cancelled. Claims 1, 2, and 4 remain pending in this application.

2. The drawings were received on 8/15/2005. These drawings are acceptable.

3. Applicant's amendments to the specification have overcome the objections, as detailed in paragraph 3 of the previous Office action.

Allowable Subject Matter

4. Claims 1, 2, and 4 are allowed.

5. The following is an examiner's statement of reasons for allowance: As stated in the previous Office action, while radiation sensitive semiconductor devices employing InSb operating at cryogenic temperatures are known in the art, the prior art fails to teach or reasonably suggest using a high purity InSb single crystal semiconductor that is not artificially doped with impurities. Radiation detection in prior art systems employing InSb with diode characteristics primarily use doped versions of the semiconductor. As such, applicant's

disclosure provides a novel and nonobvious improvement over the prior art.

Accordingly, the presently pending claims would be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick F. Rosenberger whose telephone number is 571-272-6107. The examiner can normally be reached on Monday-Friday 7:30 AM - 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Porta can be reached on 571-272-2444. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
